# "Home, Sweet Home"

"Mid pleasures and palaces though we may roam,  
It is ever so humble,  
There's no place like home."

Rent at \$25 per month for 10 yrs. \$3,000

Final Result ..... Nothing

Payments of \$25.00 per month for 10 years on a house built to your own design and specifications ..... \$3,000

Final Result ..... A Home of Your Own

The poet tells us that in the spring a young man's fancy fondly turns to thoughts of love, but everyone knows that the thoughts of the young married couple, turn to thoughts of a home of their own—the home that they have so often planned and talked about, with all the little individual yet inexpensive touches that make it peculiarly *Their Home*. You can buy a house, but you've got to build a home.

Our business is building homes or furnishing the needed material. We are prepared to give estimates on detail work from plans, and to tell you exactly what your home or the material for your home will cost. Our prices are right and satisfaction is guaranteed.

Any rent payer who has a lot and can make a reasonable cash payment on a home, can always arrange an easy payment plan with building and loan companies or the Housing Commission, and thus turn his monthly rent payments into a permanent home investment.
