GIFT ARTICLES.

What a wealth of beauty there is in a piece of rich, cut glass, how appropriate as a gift and how acceptable.

Here can be seen exquisite Silver, China, Glass and Artware.

However, no article can quite take the place of Sterling Silver for bridal gifts. The new designs in Berry Spoons, Salad Sets, and other dainty pieces at moderate cost—artistic creations in Sterling Silverware, make very desirable articles for wedding gifts.

K.B.—Fresh Fruit & Confectionery.

THE CHINA HALL,

EGANVILLE - ONT.

District News.

Almonte has re-organized its brass band.

The Ottawa Electric Company has declared a dividend of four per cent.

The Record says there are twenty-two cases of consumption in Smith's Falls.

There will be an auction sale of 40 head of western horses at Arnprior on July 10th.

Mrs. DeWitt Nay, who taught vocal music in Pembroke, in connection with the Conservatory, has removed to Uxbridge.

James Kelly, of Aylmer, while painting a house, fell a distance of twenty-five feet and had both arms broken at the wrists.

They tell a story of Angus E. Meehan, of Pembroke, landing 18 nice pickers in the short time of 19 minutes out of Moffat's canal.

The C. P. R. machine shops at Perth were destroyed by fire on Saturday morning. About 300 men are thrown out of work.

Mr. Geo. Vollin, of Golden Lake, and Mr. W. Vollin, of Bonfield, came to Arnprior on July 1st.

Several years ago they were two of the town's leading athletes. Messrs. R. H. McPherson and M. G. Howe, likewise athletes in Ottawa, have been in the city Tuesday.—Arnprior Chronicle.

The Canada edition of the Utena Globe of last week contained a sketch and photograph of Mr. John Tierney of Arnprior, Ont., who was recently appointed Magistrate of that town. He has been a merchant prince of Arnprior for the greater part of half a century and is one of the pioneers of this country.

Several agents representing different Canadian lines will be in the city to-morrow morning, says the Ottawa Free Press of Friday last. They will go over the Canada Atlantic railway and take steamer from Depot Harbor to Saint Ste. Marie, where the summer convention will be held. Among those from Ottawa who will attend are Messrs. C. J. Smith of the C. A. R. and Joseph Borley of the C. P. R.

Mr. Arch. McPhee, proprietor of the McPhee House, was the recipient the other day of "confidence money." It came from a woman in Springfield, Massachusetts, who writes that when in McPhee's employ twenty-five years ago she stole \$5 from him. Having become converted and wishing to make restitution she returns the money, together with \$1 as interest.—Arnprior Chronicle.

A very odd and peculiar accident happened to Mr. H. C. Wood, of Carleton Place, while competing in the running long jump contest at the State of Scotland celebration in Renfrew on July 1st. In his second jump he landed so heavily on his left leg that it broke in two places above the ankle. Dr. Murphy was soon in attendance and the patient is now in Victorian hospital, Renfrew.

From the report of the provincial board of health we learn that during the year 1901-2 in Renfrew county there were 103 cases of smallpox. Of these Pembroke had the most, the town being credited with 50. Adamston had 31, Rolph, Buchanan and Wyllie 10, and Grattan 12. The remainder of the cases occurred in small numbers in several of the municipalities in the county. Corbden and Ross township each had one case and Bromley 5. Most of the cases could be traced to Sudbury. In the numerous lumber camps operated by Mr. J. R. Booth 117 cases of the disease occurred.

Four gaily attired gypsies, who say they are "Good Russian people," struck the city this morning, says the Ottawa Journal of Wednesday last, and at once began to ply a fortune-telling trade, boldly entering stores and homes, though what they were doing is against the law. In most places they were rebuffed, but they did not seem to mind that in the least. In one store they encountered a hardened old commercial traveler, who said he was onto the game and had no money to blow on such nonsense. The gipsy who was working him, said she did not want any money. She only wanted to use some in an experiment. The man was finally induced to loan her two quarters and two tea cent pieces, which were rolled up in handkerchiefs. The gipsy went through a series of evolutions with the handkerchief right under the watchful eye of the commercial. As she was about to leave, she threw back the handkerchief, saying "there take your money." When the handkerchiefs were opened there was no money in them and the gypsies were gone. The C. T. is now saying things.

For Wire & Cut Nails, Felt and Tarred Paper call on W. George.

Mr. W. J. O'Connor, leader of the band, and Miss Josephine Emily Legree, both of Arnprior, were married on Monday morning last.

Mr. Stupart, director of the Astronomical Observatory, Toronto, predicts that we will have a cool summer. He claims that the records show that a cold June is invariably followed by a cool summer.

A Fatal Accident Near Perth.

Says a despatch of Monday's date: A sad accident occurred in Bathurst township on Saturday, whereby Willie Doyle, the five-year-old son of Mr. James Doyle, of the second concession, was killed. The little boy accompanied his father on a milk wagon to the cheese factory, and in some unaccountable manner fell from his father's arms and was struck by the wagon wheel. His father immediately stopped the horses and picked up the boy from the road, but he died in a few minutes. The father was prostrated with grief and it is feared that his mind may become affected as a result of the unfortunate accident.

A Fearful Fatality.

Mrs. A. Cockeline and her little 4-year-old daughter were invited to dance Friday night at their home about 12 miles distant from North Bay, and her 5-year-old boy was so badly burned that there is little hope of his recovery. Mr. Cockeline was absent from home and when Mrs. Cockeline and children retired for the night a lamp was left burning and it is supposed the lamp exploded.

Took to the Bush When They Saw the Train.

Captain J. O. Blondin, of Mr. Alex. Lonsdale's bent on the Kippewa, tells a funny story of a party of Hudson Bay Indians who reached the Kippewa a few days ago and saw civilization in the shape of a railway train for the first time. Some of the party, directly the engine appeared, made a bee line for their wigwams in the bush, going over trees, stumps and everything that came in their way. Others stood their ground, being so scared, Capt. Blondin thinks, to run away. On another occasion a party of Indians were out in canoes on the river at night when the steamer turned a powerful searchlight on them. The effect was instantaneous, the Indians paddling for shore and taking to the timber.

A MAN SHOT BY A BURGOLAR.

New York, July 2. Albert C. Latimer, a wealthy stationer of this city, who lives in Brooklyn, was fatally shot early to-day at his home in a struggle with a burglar. The burglar escaped, leaving his shoe and camp behind. Having been awakened by his wife, who heard a voice, Mr. Latimer started to make a search of the house. As he opened a closet door the burglar, masked, rushed out and Mr. Latimer grappled with him. In the struggle the robber fired two shots. After the second Mr. Latimer fell. His assailant leaped over him and escaped through a kitchen window which he had entered the house. Latimer was taken to a hospital, where the doctors, after an examination, said he could not live.

TRAIN HELD UP.

Joliet, Ill., July 1.—Four highwaymen last night held up a train No. 21, one of the fastest on Rock Island road. The train was moving at 10 miles an hour when two masked men climbed over the tender and leveling revolvers at the engineer and fireman, ordered them to stop. The engineer put on the air brakes.

The men then ordered him to dismount and made him walk to the express car as a despoil. He was ordered to ask the messenger to open the door. When the messenger appeared the burglars began shooting and threatened to blow up the car with dynamite unless he gave up the valuables in his possession. Assistant Messenger Kaue drew a pistol and was shot through the right groin.

One of the highwaymen then ordered the engine to be put on the headlight and uncouple the engine. This last effort was unsuccessful. The messenger at the point of a pistol, was made to carry a bag containing jewelry over to a fence, where the trouble was, and both were ordered to go back. By this time passengers began piling out of coaches to learn the cause of the shooting. This frightened the highwaymen, who fled.

Press Comments.

The Leader's Reception by the Newspaper Fraternity of the Ottawa Valley.

This week we reproduce the comments of the Ottawa Valley press on the first appearance of The Leader. We consider we have been very kindly received, while our paper, its character and general appearance, has elicited flattering words from several quarters. To the good wishes extended we bow our acknowledgments, and trust our relations with contemporaries shall always be of a pleasant character. Here are a few of the clipped paragraphs:

Literary and Mechanical Excellence.
The first copy of Eganville's new paper, the Leader, has been received at this office. It gives promise of both literary and mechanical excellence.—Arnprior Chronicle.

Bright and New.
The first number of the Eganville Leader has reached us and we welcome it to our table. It is a bright, new sheet that bids fair to achieve that point of success which brother McHugh deserves and has so boldly outlined in his introduction to the public. —Pembroke Advocate.

A Most Appreciative.

We have received the first number of Eganville's new paper—"The Leader," published by Mr. P. McHugh. The latest journalistic venture presents a most appreciative and starts off with a good advertising patronage. The Leader is to be independent Liberal in politics. —Shawville Equity.

Expects Success.

We expect before this issue reaches its many readers that a new contemporary will have been launched and welcomed into Eganville's large and intellectual journalistic field. With our friend Mr. P. McHugh as editor and proprietor we feel sure the Leader will be a success. Monthly Visitor (June).

Nicely Printed.

The Eganville Leader is the name of the latest arrival in the journalistic field in the Ottawa Valley. The new paper is in the shape form, nicely printed from new type and well filled with local news. It is to be independent Liberal in politics. Mr. P. McHugh is the enterprising editor. —Carleton Place Herald.

Well Printed, Well Edited.

The Free Press is in receipt of the first issue of a new weekly exchange, the "Eganville Leader." It is an eight-page six column paper, well printed and well edited. Besides the usual fund of general information concerning current affairs, the paper contains news of much interest to the farmer and should meet with success. The publisher and proprietor is Mr. P. McHugh and the paper is in politics Independent Liberal. —Ottawa Free Press.

The Mercury Need Not Worry.

Eganville's new paper, The Leader, made its appearance this week; in response, it says, to the demand of a large and influential portion of the public. That seems to be the way of the world. One paper should flourish in Eganville two may have to struggle though it may be that with the increasing development of the western portion of the county, two may now thrive where two struggled before. The Leader is to be independent Liberal, and its publisher is Mr. P. McHugh, who gives promise of being a bright newspaper man. —Renfrew Mercury.

The Standard's Deductions.

New PAPER, Eganville has not been long without a second paper, for last Friday there was issued the first number of the Eganville Leader, published by Mr. P. McHugh who was at one time with the Enterprise. The Leader comes out as an advocate of independent Liberalism, and we trust it will always remain independent, and if it does it will prove in the country for good, but we fear its independence will not last long, if we are to judge by some of the so-called independent papers in this country. We welcome the new paper, and its genial young editor much success in the journalistic field. —Pembroke Standard.

A Welcome Exchanged.

Eganville is to have a new paper of which Mr. P. McHugh is to be the Editor-in-Chief. He is spoken of as a man of ability and well fitted for the position. We welcome the new journal and

trust it may prove a success.

The first issue of Eganville's new publication, The Leader, is just to hand, and we sincerely trust it will be true to name. The new paper presents a very neat appearance and reflects credit, to the energetic publisher, Mr. P. McHugh, who we understand is an all-round newspaper man. We fear however that he is over sanguine in the possibilities for a second paper in Eganville. There are many fields as good without a paper of any kind. —Arnprior News.

A Friendly Salute.

Eganville was not long destined to remain without a second newspaper. Two newspapers seem to be necessary to a town as two wheels to a cart. Mr. P. McHugh, late of the Star-Enterprise, was in town on Monday and at the station here was awaiting him the plant of the Eganville LEADER which he proposes establishing in that village at an early date. The two papers can do little live in the village if they keep out of the throat-cutting process in the cutting of prices which prevailed while the Enterprise and the Star competed in Eganville. Mr. McHugh is a practical man, one well up in both the literary and mechanical departments of newspaper work, and is besides a young man of experience and energy which go far to make success in any calling. The JOURNAL extends congratulations in advance to the LEADER and hopes for its success. —Renfrew Journal, May 22.

A HUMAN BOMB.

Louisville, Ky., July 2.—In the presence of 5,000 spectators, witnessing an open air performance of the Last Days of Pompeii, on the common opposite Churchill downs tonight, James Duil, known as the "human bomb," received injuries which probably will result in his death. It is Duil's part of the performance to be hurled high into the air by a bomb which explodes, releasing a parachute by which the performer returns to the earth. To-night the bomb was shot into the air as usual, but when it reached its height it failed to explode and started to the earth with the victim unable to release himself. As the missile was within 100 feet of the ground it suddenly exploded and Duil was dashed to the earth. When he was picked up it was found that his back was broken.

LOCAL NEWS.

Messrs Perigo & Jamieson shipped a carload of cattle to Montreal yesterday.

Gorman & McDonnell, general merchants, of Douglas, have made an assignment for the benefit of their creditors.

Forepaugh and Sells Brothers' big circus exhibited in Ottawa on Thursday last. The C. A. Ry. issued a special ticket for the circus from points along the line.

At St. Mary's church picnic in Almonte on July 1st there was a voting contest for a gold watch between Mr. L. Ryan and Mr. M. Dixon, brother to Mr. R. Dixon, of Eganville. The watch was collected. Mr. Ryan was the winner.

We understand that Mr. E. J. Bennett, who has held the position of Indian Agent at the Golden Lake reservation, has resigned and that Mr. Martin Mullins, of South Algonia, has been appointed in his stead.

Mr. James Stack, the well-known woodsman and river foreman, spent a day or two last week in Eganville, his native home. He was down from a ten months' stay up the Du Moine, and there was due him the substantial 'stake' of \$700.

On Thursday last the distressing news came to Miss Sarah McCalmont, of Eganville, that her brother, Robert McCalmont, a brakeman on the C. P. R. was killed at Ruby Creek, B. C. The unfortunate man was a veteran of the South African war and was married only a week.

—G. & G. Finley, butchers and stock dealers, of Perth, are the latest to testify to the good results of the Baroidale Heave Cure.

A trial subscription for THE LEADER will only cost you 25c. for 3 months or 50c. for six months. Be among the hundreds who have placed their names on our list. It you wish the paper sent to an absent friend kindly give us his or her address and your wish will be complied with.

We direct the attention of our readers to the ad. of "Two Maes," Ottawa, in this issue of THE LEADER. This advertisement has come voluntarily, an evidence that shrewd business firms see that in the very near future this journal will be one of the very best advertising mediums in the country.

Among the successful pupils at the recent examinations of the Penfroke Conservatory of Music we note the following: Brenda Bulger; Laura V. Boland, Killaloe; Arthur Gourley, Dora Williams, Nellie Jones, Edith S. Byers, of Eganville; Miss Mary O'Shaughnessy, sister to Miss Eganville; Miss Mary O'Shaughnessy, teacher of the stenographic class in Eganville, graduated in elocution.

Owing to a change in the postal arrangements the manuscript for newspapers will require a two cent stamp instead of one cent stamp formerly. Our correspondents are requested to note this fact and govern themselves accordingly. THE LEADER invites correspondence from every section and neighborhood in the district. Intending correspondents will be supplied with stamps and stationery if they write us to that effect.

The Local Government, through Latchford, M.P. for South Renfrew, has appointed Mr. William Grier, of Mud Lake, a deputy game warden in the territory adjacent to the Mississippi and York branches of the Madawaska river, some distance below Combermere. This district heretofore has provided good sport, but in recent years there have been illegal practices and it will be the duty of the warden to see that the fish and game laws are respected and obeyed.

The departmental examinations are in progress this week at Renfrew and Pembroke and a number of Eganville candidates are writing. At Renfrew Class Jones, Jas. Byers, and William Campbell are writing for matriculation and Miss Maud Jones for 1st Part Junior Leaving. At Pembroke Basil George and Thomas Bulger will make an effort to secure 1st Part Matriculation, while Katie McAdam will write on the 1st Part Junior Leaving exam. Charlotte Cassey, Tessie Foley, Nellie Gallagher, Sarah McHugh and Julia E. Hogan have also gone to Pembroke for the 2nd Part Junior Leaving.

Try our Grape Nuts.—W. George.

An Eganville juvenile baseball team have issued a challenge to the Golden Lake team and are going there on Friday next to indulge in a match.

Just complaint we believe has been registered against the grammar paper in the recent entrance examinations. It was one of the most difficult ever submitted and a short time allowed for its doing.

Last week Messrs. Geo. Perigo & Son collected a fine lot of 100 head of 2-year-old cattle which were sold to Mr. Geo. Mulligan, of Aylmer. Mr. Mulligan shipped the lot to the Northwest.

PERSONAL MENTION.

Mrs. (Dr.) Maloney spent several days last week with Ottawa friends.

Rev. L. A. French, P. P., of Killaloe, was a visitor to town on Thursday last.

Mr. Allan McDonnell, of Douglas, was a visitor in town for a few days last week.

Miss Annie Sarsfield, who was visiting Killaloe friends, returned to Pembroke last week.

Miss Annie McHugh, teacher at Lyndock, is spending the summer vacation at her home here.

Miss Lily Costello, of Calgary, student at Rideau street convent, Ottawa, is the guest of Miss Tessie McCann.

Miss Maggie O'Shaughnessy, teacher of Bulger school, has been spending holidays in town for the past week.

Miss Susan Gorman, teacher of Chelmsford public school, arrived home on Monday last for the summer vacation.

Mrs. C. C. Collins and Mrs. James McCrea, of Renfrew, spent Dominion Day with Eganville friends.

Mrs. R. T. Conlon was visited last week by her two sisters, Mrs. Towner, of Chelmsford, and Mrs. Letang, of Renfrew.

Mr. and Mrs. W. George, Mr. and Mrs. P. Bulger, Mr. Joseph Labarge and several others were to Ottawa on Thursday last.

Misses Mary and Maggie Gorman, teachers at Garden River, Ont., during the past term, are holding camp at their home here.

Mr. John Coyne, who had been spending several weeks at his home in Grattan, returned yesterday morning to Youngstown, Ohio.

Rev. Father Marion, P. P., of Douglas, whose health, we presume is not the very best, has secured the assistance of a curate from Ottawa.

Mr. Martin Foley, Depot Harbor, (formerly of Eganville), spent a couple of pleasant days with friends in town last week.—North Bay Times.

Rev. Father Duquette, assistant priest at St. James' church, returned on Thursday evening from a two week's visit to his home near Montreal.

Dr. W. P. Finlan, of Bristol, brother to Mr. A. McEachen, Douglas, and Mrs. T. J. Breen, Bromley, has opened an office at Sault Ste. Marie.

Mr. and Mrs. J. P. McNamara, who were spending some time here with Mr. McNamara's parents, left on Tuesday for a short stay with friends in Kingston.

Mr. Leo George was among the Fourth of July visitors to Ogdensburg. The excursion was run under the auspices of the Citizens' Committee of Carleton Place.

Mrs. C. J. McDonnell and her daughter, Mrs. R. Shattley, of Ottawa, were the guests of Mrs. John Bonfield, of Eganville, for several days last week.

Miss Perigo returned home last week from an extended visit to friends at Sudbury and Port Williams. She was accompanied by Miss Tallion, of Fort William, spent some time with friends at Duluth, Minn.

Miss Mary Bourke, teacher at Perraull school for the past term, is holidaying at Renfrew. Miss Bourke has resigned this school as her purpose at the moment is to remain at Ottawa at the forthcoming term.

Mr. D. A. Irving, accompanied by his sister, Miss Polly Irving, were up from Ottawa last week for a few days visit to their home in Grattan. "Dave" was a caller to our office and we are pleased to learn that he is climbing the ladder of success with the Two Maes tailoring company, of Ottawa. He has been commissioned as a travelling agent by the firm, and his territory extends from Ottawa to Parry Sound on the C. A. R. route.

Mr. John W. Gallagher, of Sebastopol, accompanied by his sister, Mrs. Thos. Maher, of Eganville, left on Monday evening for Sault Ste. Marie. Mr. Gallagher is a partner in a business and social nature. He is the owner of real estate at the Soo and as prices have advanced by leaps and bounds since the establishment of the Clergue enterprise there he stands to sell at handsome profits. Mrs. Maher and Master Aubrey will go to visit friends in Minnesota.

Address and Presentation.

On Friday afternoon last the pupils of Miss O'Shaughnessy's class in typewriting, and short-hand presented their teacher with a kindly worded address accompanied by a handsome watch case. The occasion was the closing of the examination, in which the following candidates wrote: Misses Tessie O'Brien, Maggie Donovan, Katie McGuire, Maggie J. Gorman, Lizzie Devlin, Mary McCann and Charlotte McHugh. Miss Donovan's address read as follows:—

VERY DEAR TEACHER AND FRIEND:—Today, which marks the close of your teaching days in Eganville, has been chosen by us, your pupils and friends, to express to you the gratitude and the kindly sentiments we cherish toward you for your painstaking efforts and sacrifices. From the first you impressed us with the need of discipline, the desire and the wisdom of studying with the purpose of attaining a high position in the sphere of knowledge. During your lessons here in the capacity of teacher and associate we have learned to love you, not alone for your amiable disposition and uniform kindness, but also for the interest you were taken in each and all of us by your marked assistance during the hours of study. Our recollections, we fondly believe, have been of the happiest nature and we pray the links of friendship will remain unbroken through time and space until we meet again. As a token of our affection we beg to present to you this little gift, which shall also serve as a memento of this occasion. Although the future may see us separated by the winds of change, we shall ever remember the days of your instruction and the words of encouragement which you have so graciously bestowed upon us.

Miss O'Shaughnessy was visibly affected by the evidence of warm attachment on the part of her pupils and spoke her gratitude in words that did not fail to find a response in the hearts of the graduates of her class.

DOUGLAS PICNIC.

Close upon one thousand people assembled in Douglas on Saturday last, the occasion being a picnic under the auspices of the Public and Separate School Boards and the Football Club. It was a most enjoyable day although rain in the afternoon somewhat marred the pleasing programme of things.

The first item on the programme of sports was the football match between Oseola and Douglas. The game was played on Association rules and although it lacked the fire and enthusiasm of Rugby, it was a keenly contested match and finished with honors about even, the score being 1-0 in favor of Douglas. The teams lined up as follows:—

Oseola: A. A. Ferrier, O. Gennill, A. Gennill, W. Gennill, P. Walsh, J. Walsh, M. Walsh, H. Devine, H. Dooner, W. Dooner, C. McLaren.

Douglas: C. McDonald, L. McIntyre, N. J. Cochrane, Rev. Richards, H. Cochrane, E. Byers, S. V. Robinson, W. McDonald, J. Potter, Jno. Byers, Chas. Gorman.

REFERENCE.—Robt. Carr, North-coke.

During the progress of the football match the Renfrew juvenile band, which presented a very creditable appearance and won golden opinions during the day—and the Hull baseball team, arrived from the coast.

The baseball match between Brudenell and Hull took place immediately after dinner. What could have been a good exhibition of ball ended in a fiasco. The Hull team had probably come to Douglas with an inflated opinion of its own prowess and a correspondingly low estimate of their opponents. They had only to play an innings or two to discover that Brudenell's battery of Costello and McGrath was even superior to their own, and to make even a close score would require their best efforts. This apparently they were not to do, and the disgust and disappointment of the hundreds who had come for the special purpose of witnessing the match. The Brudenell boys ran their score up in the twenties while the Hull team? runs. The LEADER representative was retained as umpire, his decisions being repeatedly questioned by Hull. Mr. H. C. McNab, of Renfrew, was called in to referee, and to the finish. The following players comprised the respective teams.

BRUDENELL.—J. F. Costello, W. McGrath, J. A. Costello, R. C. Smith, P. French, J. J. O'Brien, W. Whalen, W. Dooner, Sparc, M. Coughlin.

HULL.—Mullhall, McEwen, Tompkins, Bennett, Lefebvre, Leblanc, and others. Potentially.

Following the baseball came an interesting football match between the Douglas juniors and the North-coke senior team. The Douglas youths were greatly admired for holding down their big opponents and not allowing them even to score.

NOTES.

About fifty from Eganville attended the picnic.

Mr. M. Welch deals sure business with the widest of fortune.

A picnic now without a canoe dinner would not be complete and Douglas was in line on Saturday with an excellent shanty meal.

The promoters of the picnic, and especially Messrs. John Kerr, P. Gorman, Geo. McNab, P. Dunne, Allan McDonnell, Chas. Gorman, with the lady assistants, are to be congratulated on the successful manner in which everything was carried out. The picnic will show a profit of two hundred dollars.

—Try our Swiss Food.—W. George.

The Renfrew Mercury, an ideal provincial weekly, commenced its 32nd year last week.

Rev. Father French, P. P. in the administration of parish duties at Brudenell.

At the regular meeting of Byrne Court, Catholic Order of Foresters, last night (Monday) an estimable member was secured in the person of Mr. Thos. J. Breen, of Bulger. The Court is steadily growing in numbers and displaying a vitality that is most gratifying to the members who compose it.

An Ottawa paper, dated yesterday, says that Geo. Mercier, is supposed to have committed suicide by jumping from the Chaudiere bridge into the river. Mercier, who was employed in Eganville several years ago as a barber, attempted suicide on a former occasion by slashing his throat with a razor. He did not succeed then, but evidently he has now carried his mad purpose into effect. He was 21 years of age.

The editor of an exchange had written up a long editorial with convincing logic on the subject of trading with home merchants, but when on the rounds of the town he saw the merchants writing letters on baking powder letter heads or using patent medicine bill heads and some of them using cheap stationery produced at some cheap John printing house out of town because it was a little cheaper, he went back to his office and tore up his effort. It's a poor rule that doesn't work both ways.

Wedded This Morning.

At 5.30 o'clock this (Tuesday) morning a pretty ceremony was performed at St. James' church when Mr. Philips Lacombe, of Arnprior, took for a life partner Miss Mollie Contois, of the Central Hotel staff of assistants. Rev. Father Duquette officiated and the bride, handsomely attired in a dress of crepe de chene was assisted through the important event by Miss Mary Latham, even, the groom's brother, Mr. Geo. Lacombe, acted in the capacity of best man. After the ceremony, the wedding party repaired to the Central Hotel where breakfast was served, subsequently driving to the C. A. R. station where the express was boarded for Arnprior, their future home. The bride has been a valued assistant in the Central Hotel for years, where her courteous and obliging disposition made her a favorite with all. THE LEADER extends congratulations to Mr. and Mrs. Lacombe.

PARRY SOUND STATION.

James Quinn, Sr., of Grattan, is visiting friends in Huntley and Fitzroy.

The Good Roads train arrived here on Saturday, consisting of four cars. It came by C. A. R. Mr. John Knight, of Renfrew, has moved his family from Renfrew to spend the summer months at the Fourth Clute.

Foreman Le Bree and H. Menard are putting two telephone wires on the poles of the C. A. R. from Ottawa to Depot Harbor. Their landing car was consigned to Eganville station on Saturday.

The Leading Specialists of America 20 Years in Detroit. 250,000 Cured.

WE CURE STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, small, itching, stinging, sharp cutting pain at times, slight discharge, difficulty in commencing, weak erections, and all the symptoms of nervous debility which have STRICTURE. Don't lose your reputation! Run. This will not cure you, and will ruin you. Our NEW METHOD TREATMENT absorbs the stricture immediately. It never returns. No pain, no suffering, no detention from business by our method. This is the only reliable method of the cure of this disease.

WE CURE GLEET

Thousands of young and middle-aged men are having their vital vigor and vitality daily sapped by this disease. They are frequently unconscious of the cause of their weakness. General weakness, (unusual) discharges, falling asleep, nervousness, four or five, irritability, at times smarting down the urethra, and all the dark, sticky, Watery, Green, Yellow, or Pink, or Black, General Depression, Loss of Appetite, and all the symptoms of nervous debility which have GLEET. Don't lose your reputation! Run. This will not cure you, and will ruin you. Our NEW METHOD TREATMENT absorbs the gleet immediately. It never returns. No pain, no suffering, no detention from business by our method. This is the only reliable method of the cure of this disease.

MONTHS OF PAIN

CAUSED BY A TUMOR OF THE
BREAST.

Mrs. J. M. Timbers, of Hawke-
sary, Tells How She Obtained
Relief After Doctors Had
Failed.

From the Post, Hawke-sary, Ont.

Mrs. James M. Timbers is well known to nearly all the residents of Hawke-sary, Vanhook Hill and surrounding country. She was born in Vanhook Hill, but since her marriage, twelve years ago, has lived in Hawke-sary, and is greatly esteemed by all who know her. Mrs. Timbers is one of the many thousands who have proved the great value of Dr. Williams' Pink Pills, and gives her experience for the benefit of other sufferers. She says: "I was suffering my first child I suffered from a nursing tumor under the left breast. The first symptom was a sharp pain followed by a growth, which gradually increased in size until it became as large as an egg. It was exceedingly painful and caused me great suffering. I consulted a doctor, who gave me medicine, but it did me no good. Then I consulted another doctor, who said I would have to undergo an operation. In the meantime, however, the tumor broke, but would not heal, and as a result, I was feeling very much run down. At this time my attention was directed to Dr. Williams' Pink Pills, and I began using them. I soon felt that they were giving me increased strength and after using a few boxes, the tumor had disappeared. I was as well as ever I had been. My health has since been good, and I cannot speak too highly of Dr. Williams' Pink Pills."

These pills cure troubles like the above, because they make rich, red blood and drive out the impurities from the system. Through their action on the blood they also cure such troubles as anæmia, heart palpitation, erysipelas, scrofula, rheumatism, rheumatism, St. Vitus' dance and the ailments that make the lives of so many women miserable. The genuine always bear the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around every box. Store by all druggists, or sent postpaid at \$2.50 a box, or six boxes for \$15.00, by addressing The Dr. Williams' Medicine Co., Brockville, Ont.

VALUABLE HINTS BY DUNCAN
C. ANDERSON.

Early Winter or Fall Call the
Best—How the Animal
Should Be Fed.

"For a number of years I have had most of my cows drop their calves in the late fall or early winter," says Duncan C. Anderson, of Brockville, Ont., "and I have come to the conclusion that there is a decided gain in so doing. The calves are born lengthened; cows coming in fresh before Christmas, by liberal feeding in winter, milk nearly as well in the early summer as in the late fall. At their best, as cows that come in fresh in March. We milk ten months, giving the cows two months rest. They are rested in the early fall when the pastures are at their poorest. At that time the grass is generally dry and the cows are lean. As we raise on the skim milk one calf to each cow, it is very important that the cows should have two months rest in the early fall. When the cows are milked to within a couple of weeks of calving they get so chagrin that the milk is generally poor. The cows generally come in with a weak condition, and does not make as rapid or satisfactory a growth in the first six months as they do when they have had a fair period for rest and recuperation. After a long term of experience I have come to the conclusion, considering the increased price of winter butter, the long milking season, resting when the grass is poor, that in wintering cows give at least 25 per cent. more milk in the season than if they came in fresh in the spring months. Again, an early wintering of calves is quite as heavy at two and one-half years as a spring calf at three years old. The calves gain six months in the age of the calf for the reason for this being that it is weaned off the milk in June, goes on to grass, is fed a little grain all summer, and in the fall it is a good strong lusty yearling, and winters much better than a spring calf, which is just weaned in the fall and goes into winter."

WHEN A CALF IS DROPPED

It is not good practice to allow the cow to fatten up in the winter. When the separation does take place there is always a disturbance in the cow stable; the mother gets excited, and some nervous cows remain so for the best part of a week. Better results are obtained by removing the new born calf without disturbing the mother. Rub it dry with a wisp of straw, put it into a roomy, dry, warm pen, free from drafts and draughts, and give it a little milk at twelve hours. When a calf is hungry it is not nearly so much trouble to teach it to drink. The calf should be fed with a quart of whole milk three times a day, care being taken that the room milk is warmed to the body temperature of the calf. For the next three weeks half a quart of skim milk should be added to the whole milk to be five weeks old, discontinue the skim milk, also the whole milk, giving about three quarts of skim milk twice a day. In this time the stomach will be strong enough to assimilate and digest other food. The milk meal should not be pulped right off the can and well mixed clover hay. If a separator is not used and the milk is sent in shallow pans, the milk cans, it should always be warmed up to the body heat—before being fed. If it is fed cold or too hot it is apt

Every Woman Should Know.

That Prof. W. Hodgson Ellis, Official Analyst to the Dominion Government, has recently made a number of analyses of soap, and reports that "Sunlight Soap contains the highest percentage of oils or fats necessary for a good laundry soap."

What every woman should know is that in common soaps are frequently paid for adulterations at the price of cleanliness. Try Sunlight Soap—Octagon Bar—made in Canada, and you will see that Prof. Ellis is right. He should know.

A CALF THREE MONTHS OLD will take a cup full of this flax seed cake porridge in its skin milk. The porridge is made by cooking the flax seed in water. Care must be used at first not to overfeed, but to work up gradually to what will be a regular meal. This milk, flax seed cake, roots, chopped oats and clover hay, and with comfortable warm pen, clean and well bedded. Calves can in this way be raised much more profitably in winter than in summer. When a separator is used, it is best to feed the froth of the skimmed milk, and not feed it to the young calves, especially those of the first year. It has a tendency to disturb the normal action of the stomach, and set up colic. Whenever a calf is scouring reduce the quantity of milk, and be careful to have the milk from calves scoring.

In warm weather calves should be kept in during the day time, and turned out in the evening. Thus they will avoid the hot sun and the flies. Whole or chopped oats should be fed to calves, and not just the froth of the milk. The milk should be clean as the milk of a whole and chopped oats, about a cupful twice a day for an ordinary sized calf on good pasture, will be sufficient. For full feeding use the root and hay, there is nothing equal to green corn run through the cutter and mixed with some chopped oats.

The main point in calf feeding is to never allow them to stop growing and to keep them in good flesh. In feeding calves in every system of feeding the extremes of over and under feeding are to be avoided. Consistent and liberal feeding always brings the most profit, and the best practical results.

P. W. HODGSON,
Live Stock Commissioner.

DAILY'S OWN TABLETS

Cure All Minor Ills, and Bring
Joy and Comfort to Baby
and Mother.

Disease attacks the little ones through the digestive organs. Baby's Own Tablets are the best thing in the world for all bowel and stomach troubles. They act quickly and gently, and bring relief from indigestion, colic, constipation and diarrhoea. They are also a great help to teething babies. Mrs. E. M. Barnes, Six Mile Lake, Ont., says: "Baby's Own Tablets reached me just in time as my baby was very ill with indigestion and bowel trouble. I am happy to say the Tablets relieved him after a few days. He is now thriving splendidly with just a Tablet now and then when he is restless. I am the mother of eight children and have tried nearly all the old remedies, but have never found a medicine equal to Baby's Own Tablets."

There have been times when the Tablets have been mistaken for a powder they can be given to the smallest, feeblest child with a certain good result.

Sold by all druggists, or sent postpaid at 25 cents a box by writing to Duncan C. Anderson, Brockville, Ont., or Schenectady, N.Y.

WHALES AND SHARK.

A Battle Royal Between Them in the Atlantic.

The big American liner Rhineland, from Liverpool, reached her dock at the foot of the Commercial Avenue, Philadelphia, about ten o'clock on Wednesday morning, and the passengers took a thrilling story of a bloody battle between a shark and a school of whales, which they witnessed off the coast of Nova Scotia. There have been times when the ships of this line have made eventful trips, but the oldest voyager does not recall any so exciting as the one which ended today.

It was about ten o'clock on the morning of the 12th when the keene-tow to fumble and the passengers clustered upon the promenade deck, away off what they took to be a group of logs. It was soon seen, however, that the supposed logs had moved and were rapidly making their way towards the ship, owing to the fog, going at half speed. Negroes and other crew members, and then it was seen that it was a school of whales. Each was a monster of the deep, and the Rhineland was not long before the whales were ahead of the Rhineland, and going at about the same speed as the ship. The ship was fully equipped with them, and they presented an unbroken front. There was not one of them that did not have a large, powerful, and the passengers gazed upon the whales with fascinated eyes, for it is seldom that such dwellers of the sea are seen in that form. Suddenly just behind the whales the interested watchers saw another monster of the deep, a shark, burst simultaneously from the water, and in a few minutes the battle was on. The shark plunged into the midst of the whales, and the struggle was on. Just as the shark started into the

THE ACTION OF WAR.

Its Effect Upon the Birth and Death Rate.

War not only influences the mortality of the army in the field, but has a malignant effect on the birth rate and death rate of the country at large. A low birth rate may be explained to some extent by the fact that when a nation is at war her people at home are less prosperous and consequently marriages are not so frequent.

The increase of the death rate occurs, probably, for the reason that food is scarce, and also because at the time when a country is engaged in a disastrous war, the minds of its inhabitants are adversely affected. Those who are delicate health, or who are attacked with sickness, succumb much more readily when the spirit is depressed than in a normal condition. It is, indeed, the reaction of the mind upon the body.

The returns of the Registrar-General of Great Britain of birth, marriages and deaths for the year 1900 demonstrate the potency of the influence of war upon the birth and death rate.

The births in 1900 numbered 927,002, or a rate of 28.7 per 1,000, the lowest on record, and the deaths, 1,080,000, or a rate of 35.3 per 1,000, the highest on record. These rates constitute a highest on record. Tuberculosis claimed 61,302 victims, or a death rate of 19.4 per 1,000. The deaths of the army were 27.6 per 1,000, as compared with 10, 12 and 10.5 in the preceding three years. The death rate in the army abroad was 26.1 per 1,000, as compared with an average of 14.5 in the previous years, and the death rate at home was 8.2, as compared with an average of 4.3 in the previous five years.

Thus it will be seen that war drains the life blood of a nation. Nothing is said in the above returns as to the action war is asserted to have on the production of sex. On the authority of German scientists, it has been declared that the female sex in a nation at war are apt to give birth to a much larger number of males than is ordinarily the case.

The London Fire Brigade keeps the population of London 10 cents a head yearly.

Minard's Liniment the Best Hair Restorer.

TO CURE A COLD IN ONE DAY.

Take a few drops of Minard's Liniment and the cold is cured. A. W. Duggan's name is on each box.

A person 20 years old, has an average 42 years life before him if he lives in the United States, 41 if he lives in England, and only 37 if his home is Belgium.

Unusually—Mr. Thos. Brunt, Trembling, Ont., writes: "I have to thank you for the Electric Oil for bleeding piles. I was troubled with them for nearly thirty years, and tried almost every remedy, but they did not cure me. I was told that I should try your Electric Oil, and I have now been free from the distressing complaint for some time. I hope you will continue to recommend it."

Cast-iron ploughs were introduced about 120 years ago, and much objected to upon the ground that they poisoned the land.

ITEMS OF BOOKBINDING.

It seems a somewhat surprising statement to make that eggs, condensed milk, olive oil, and vinegar are all used in the binding of books. Yet such is the case. The white of egg is used for "gluing," to cause the delicate ornamental golden to adhere to the leather. To make the "gluing" perform its adhesive work even more delicately, a little milk is added; and to help form in the important work of adhesion, a coating of olive oil or diluted vinegar is sometimes applied to the leather. While old bookbinders have been seen to use the light froth of ale as a coating over a binding of silk. The froth, when mixed with glue, is perfect. Many of the old expert bookbinders have little secret methods of their own by which to produce peculiarly fine results, and these secrets they guard as jealously as the housewife does her favorite family recipes.

A RAILWAY MAN.

EXTRAORDINARY UNPLEASANT SYMPTOMS OF KIDNEY TROUBLE IN THIS CASE.

Tortured by all Kinds of Pains and Aches he Tries Everything, but Fails to Find Relief Till a Friend Advises Him to Use Dodd's Kidney Pills—They Have Made a Well Man of Him and He Is Grateful.

Ottawa, Ont., June 30.—(Special)—Frank Charnard, a railway man, whose home is 150 Little Claude street, has acknowledged that Dodd's Kidney Pills have done more for him than anything else in the world has ever done. He says: "I suffered with backache and was always drowsy and had a very heavy feeling in my limbs."

"I had frequent severe headaches and more times very sharp pains in the top of my head, which have not much annoyed me in my work."

"My fingers would cramp and I would have an uneasiness in my legs and occasional pains in the back of my head."

"I was dizzy in spells and short of breath. If I ate a hearty meal I would find a pain in my left side. My appetite would sometimes be very good and sometimes I couldn't eat anything."

"I had a constant soreness and tenderness over the spine and tired feeling in the region of my kidneys. I suffered with a little with a dragging heavy feeling across the loins."

"Dodd's Kidney Pills were recommended to me by a doctor, and I began to use them."

"Almost from the start I began to feel the wonderful improvement, which continued till the unpleasant symptoms had one by one entirely disappeared."

"Dodd's Kidney Pills have worked a wonderful cure in my case and I cannot speak too highly of this great medicine sold for cents, colds, inflammation of the lungs, and all other troubles of the urinary system."

"What Dodd's Kidney Pills have done for Mr. Charnard they have done for thousands of others, and the fact is that you can give them a chance."

"There are many railway men in Canada who suffer from Dodd's Kidney Pills. Indigestion. They are the railway man's surest and best friend."

"The constant vibration on trains and engines is very hard on the kidneys, and Dodd's Kidney Pills make these organs well and able to resist disease."
