GIFT ARTICLES.

What a wealth of beauty there is in a piece of rich, cut glass, how appropriate as a gift and how acceptable.

Here can be seen exquisite Silver, China, Glass and Art-wares.

However, no article can quite take the place of Sterling Silver for bridal gifts. The new designs in Berry Spoon, Salad Sets, and other fancy pieces at moderate cost—artistic creations in sterling silver-ware, make very desirable articles for wedding gifts.

N.B.—Fresh Fruit & Confectionery.

H. Goulette,

To... Advertisers

Summer business is now engaging your attention.

Now is the time to make a contract for a regular space in THE LEADER—the paper which is destined to lead all other Ottawa Valley newspapers in the race for news and popularity.

Perhaps you would like to arrange for a bulk quantity of space to be used when and how you like.

Or perhaps you would like to try some liners in the news columns.

We will be happy to talk the matter over and quote you prices on anything.

Give THE LEADER a trial. We believe it will prove a profitable investment.

"THE LEADER"

F. McILWAIN, Publisher and Proprietor,
Eganville - Ont.

—The R. C. congregation of Arrapier will hold a picnic on Dominion Day, July 1st.

—Mr. John Teevans is placing an additional story on the Albion Hotel in Godfrey.

—Penbrooke ratepayers endorse the bylaw to raise \$11,500 for road improvement by a majority of 184.

—On the C.P.R., the new minimum rate of wages has been raised from \$43 to \$46 for telegraphers and from \$30 to \$35 for dispatchers.

The "Imperial Limited," the C. P. R.'s fast train from Montreal to the coast, made its initial run for the season of 1902 on Sunday last. The trip is made to the coast in 92 hours.

—Mr. and Mrs. Henry Clement, of Almonte, suffered a bereavement recently by the death of a little son, Orville Arthur. At the funeral the teachers and pupils of the separate school attended in a body, and contributed a beautiful wreath.

Mrs. Louis Couillard, a young French woman, of Montreal, died in terrible agony Tuesday night from burns received in attempting to rescue her child from being burned by an overturned lamp. In saving the child the woman's clothes caught fire and she was terribly burned.

—A jolly crowd of young people drove to town on Saturday morning from Opeoka and left on the steamer Victoria for a day's outing. All on board were to the joy of the captain and his crew. The party was led by a young man, J. Gorman, of Ottawa, formerly of Pembroke.

The Yonville training school of nurses, in connection with Water Street hospital, Ottawa, held its first commencement exercises on Thursday evening. Amongst those who secured diplomas as trained nurses are Miss May Murphy, of Almonte; Miss Frances Grierson, of Fitzroy Harbor. The latter, who also delivered an able valedictory address, was several years ago a student in the Eganville convent.

—Mr. J. R. Lavell, M.P., of Smith's Falls, is going about these days with a badly disfigured face, the result of the reckless work of a boy with a catapult. He was on his way to the office when he suddenly he was hit just under the eye and for a few seconds he thought his eye was gone. This happily proved not to be the case, but it was a close call and Mr. Lavell suffered intensely. He had been struck by a stone thrown from a catapult in the hands of a boy invisible. His face was badly swollen and discolored but the injury was nothing to what it might have been and came so near being fatal.

—Gente's try W. George for Tooker's \$1.00 shirts.

—\$150,000 worth of lumber belonging to Munro and McCool was seized by Montreal lawyers acting on instructions from five Ottawa men, who claim that \$80,000 was due them in wages and which had been refused. As Munro and McCool wanted to forward their timber at once to Quebec they paid the wages and costs and procured a release.

—Two unknown men committed suicide last week by jumping from the third span of the north bridge of the C. P. R. into the Ottawa river. The bodies were carried down the stream and so far have not been recovered. The men were seen to cross the south bridge first. They stopped in the center and again at the end but nothing very peculiar was noticed about their actions. They then continued their way to the north bridge. When they were on the third span one was noticed to leap from the structure. A second or two later the other followed. Mr. J. B. Higgins, foreman for Mr. Booth, noticed the two after they reached the water. The bodies floated down the swift current about 400 feet and then disappeared.

—Mr. C. W. Spencer, general manager of the eastern division of the C.P.R. and vice-president of the O. N. and W. P. and P. J. and Kingston and Pembroke railways, was in Ottawa on Thursday after making an inspection of the last mentioned road and arranging for a number of improvements which have been decided upon. Mr. Spencer, speaking in reference to the intended extension of the P. & P. J. to connect with the main line of the C.P.R. and thus shorten the distance for transcontinental trains stated that surveys are at present at work on three projected lines from some point on the Pontiac division. Comparison of distances and estimates of cost are being made and the connection between the two lines will be made either at or near Renfrew, Cobden or Penbrooke. A decision as to which route will be selected will be reached in the very near future.

Dentist.—Office over Post office; open daily, from 8.30 to 12 a. m., and from 1 to 6 p. m.

The Boiler Exploded.

Parry Sound, June 16.—By an explosion of one of the large boilers of the Ontario Lumber company's mill at French River on Saturday afternoon, two men, George Webster, sawyer, and Hugh Campbell, fireman, were instantly killed. The mill was not running at the time of the accident having been shut down temporarily for repairs. The two men were sitting in the boiler house at the time of the explosion, which was of such force as to blow out the end of the building. No cause is assigned for the accident. An inquest will be held. The men, who were killed, were both married, their families living in French River.

Rush to New Ontario.

Toronto, June.—The rush of settlers into the Rainy River valley following the completion of the Canadian Northern railway has led the government to throw open the public lands in the surrounding surveyed townships in that region. These effected by the order in council are the townships of Spohn, Pratt, Sifton, Sutherland, Matheson, and Kinross. In this area the official report states there is much excellent land, though in some cases it will require drainage before it can be used profitably. The order will make a total of twenty-eight townships open in Rainy River valley, each comprising about 25,000 acres, or 614,000 in all.

Canon McCarthy Rescued.

Rev. Father McCarthy, pastor of St. Bridget's church, Ottawa, celebrated the 25th anniversary of his elevation to the priesthood on June 17th. It was an occasion of great religious rejoicing. Archbishop Duhamel officiated at the ceremonies and among the visiting clergy was Rev. Father Marion, the esteemed pastor of St. Michael's parish, Douglas. Rev. Canon McCarthy was presented with an address and a beautiful gold chalice by his fellow priests. He also received addresses from the members of the congregation. Rev. Father Peter McCarthy was born in Ireland, but removed to Canada at an early age. He studied at the separate and high schools of Pembroke and received his theological training at the Ottawa college. In 1877 he was ordained priest in the diocese of Ottawa by Archbishop Duhamel, then bishop. The young priest was the first ordained outside the diocese of Ottawa for service in the same.

A Grimsby Veteran Drowned.

One day last week an old man named Walter Barry was found dead in a pool of water on John Potter's farm, in West Templeton. Barry was a veteran of the Crimean war, and had been employed on farms in the neighborhood for over twenty years, and a remarkable coincidence is that he met his death on the farm he first started work on. A little boy discovered the body and notified Mayor Laurin of West Hall, who in turn notified Coroner Graham. Neighbors who identified the old man could tell little about him except that he was seen in Gaitins Point nearly two months ago and at that time he had come out of the Protestant Hospital, where he had been laid up for some time. Little is known of the old man's relations, but he was regarded as a harmless old man, who occasionally gave way to intemperance, and it is believed he fell face downward in the pool when under the influence of liquor and could not get up again. There was no mark of violence on the body and no suspicion that any one would harm the old man who by reason of the stories he could tell of soldiering days was something of a favorite at the farm houses round.

A NEGRO ELECTED.

Douglas, Man., June 18.—The four deputy returning officers and clerks who have been taking the vote in Kiamistio division, N. W. T., in which Carrot River and Red Deer are situated, have arrived from Greatport last night. They report heavy rain in that district. In one instance the boat was capsized, the party was dumped in the river and two of the ballot boxes lost. As a result of the vote Meyers and Nott Shadd, a negro, have been elected for the constituency. Shadd is the first full-blooded negro to be elected to a legislative body in Canada.

A TRIP THROUGH ALGONQUIN PARK.

On June 5th last Mr. J. McCuen and Mr. John Bonfield, two experienced woodsmen, left Eganville on a trip of mining exploration in the interests of the Canada Iron & Furnace Co., which is at present operating the iron mines in Grinton.

The LEADER is indebted to one of these gentlemen for a diary account of the trip, their impressions of the country, etc. Algonquin Park headquarters were reached in the evening of June 5th, where Mr. Bonfield, being a former park ranger, was made welcome with his friend. At headquarters the mining explorers gathered a store of provisions and next morning accompanied by Chief Ranger T. O'Leary, took the train for Rainy Lake. On the journey westward Mr. McCuen and Mr. John Bonfield were passed. At Brule Lake, Shepherd, of Toronto, owns and operates a sawmill, and there was also seen the genial and popular James Armstrong who is stationed as fire agent for Mr. A. Barnett, of Renfrew. Night found us camped in one of the shelter huts at Rainy Lake.

On the morning of June 7th, we traveled down the railway line and located western boundary of Algonquin Park in the township of Muskoka. The railway line, on Park line, where the industries little beaver had left evidences of his work which challenges wonder. The recent fire had not touched upon this location but very little damage was done. Rainy Lake is a growing town. Bonfield and McCuen have a sawmill in course of erection being owned by some good pine cuts in the district. Last year they shipped a large quantity of square timber to the States.

On the following morning we canoed down Rainy Lake, ran over Portage to Harwood Lake, reaching Dabry Lake in about three hours. The latter is a beautiful sheet of water surrounded by pine and hardwood. Here the trout fishing is all that can be desired and the tourist may here spend a delightful holiday. Harwood Lake was the first point reached. In this body of water speckled trout abound, affording excellent fishing. We reached the lake but at Eagle Lake at night, but we kept wakeful hours as the very of wolves and bears could be distinctly heard. Eagle Lake is four miles long and two miles wide and dotted with numerous islands. This is another tourist resort and one of the finest in the Park. While canoeing down the west side of the lake three moose could be seen deerling in the water, and thus escaping the tortures of black flies. Dinner was taken on an island which Mr. McCuen there and then named "Turkey Island," owing to his discovering a number of fishing rods which doubtless sporting hands had stored away for future use.

In walking about Mr. Bonfield discovered a gull's nest containing four eggs. The eggs were served on the dinner table, but Mr. McCuen had scruples when it came to feasting on gull's eggs and politely declined them. It was on this

day Chief Ranger O'Leary shot a bear which had wandered too near for its own safety. In connection with the shooting of the bear Mr. O'Leary, who enjoys a joke and is a voracious story-teller, related how on one Green Bay and Ottawa trip last year he encountered him but unfortunately he had not cartridges for his rifle but had a supply of powder with there at the moment a happy expedient struck him. He charged the gun with powder and taking out his pocket-knife placed it in the barrel and fired. The bear disappeared at the time, but this spring the chief ranger saw him up a tamarack tree picking gum with his knife which was timber-marked: "Everything that happens is all the best." Eagle Lake is situated in the township of Batt, where Mr. J. R. Booth the lumber king of Ottawa, owns limits that can be seen in all feet above strength and grandeur. There is no doubt that Algonquin Park is destined to be one of the greatest national parks in the world. It lies between the Georgian Bay and Ottawa River, and is one of the most remarkable regions of lake and stream, primeval forest and rock that can be found anywhere. It is a great game preserve, a fisherman's paradise, a source of water supply, a field for re-forestation operations and a natural sanitary resort. The elevation at Cache Lake is about 1,837 feet above the sea. In the valleys between the rock ridges of the Laurentian formation are the foundation heads of the Muskoka, Madawaska, Petawawa and Bonfield rivers. The reservation is indeed a veritable lake land. Fully fifty per cent. of its surface is to be water, and it is estimated that there are about 1,000 beautiful lakes and bays within its boundaries. During his trip through the park Mr. Bonfield was pleased in meeting many of his former rangers and guides, namely, Mr. Stephen Watters, of Ottawa, trip as steel and an experienced woodman; Mr. Daniel Ross from Bonfield Station, who would turn his back on a bigger man in a three days' trip; Mr. Robt. Belford, of Arrapier, a skilled ranger and one well acquainted with the portages of the park from Cache Lake to Great Opeyung; Mr. John O'Gorman, of Renfrew, is among the most popular of the rangers. He occasionally breaks the monotony of park life with a good story well told; Mr. George Godin, a former resident of Eganville, was given a hearty clasp and last but not least Mr. James Sawyers, who once the very few white men who can build a birch canoe. Mr. G. W. Bartlett, Park Superintendent, extended every courtesy to the explorers and they returned home on June 17th well pleased with the trip.

—W. George, Agent, Pacific Steam Laundry, of Toronto.

Four lives were lost by a landslide at St. John's, Que., on June 18th. The slide occurred near the railway station demolishing the flour mill and private dwelling of Raymond Blodden. Mr. Blodden and his wife and two children were buried in the ruins. Mrs. Blodden was got out from under the ruins half an hour after the accident with both legs broken. She only lived two hours. The youngest girl has not as yet been found.

We Sell R. J. TOOKES

Shirt Waists.

An Elegant Lot in Fashionable Colors. Perfect Fitting.

Taste and fashion this season demand dainty and elegant Waists. Here are the materials to meet this demand.

A Complete Stock of

Groceries and Table Necessaries.

We'll be disappointed if this ad. does not bring a lively response, so reasonable, reliable and perfect are the goods, and so temptingly low are the prices.

W. GEORGE,

General Merchant.—EGANVILLE — ONT.

LEADING MARKETS.

The Buling Prices in Live Stock and Breadstuffs.

BREADSTUFFS.

Toronto, June 17.—Wheat—Is steady at 70c to 77c for red and white middling winter wheat, steady at 70c to 77c for No. 2 east. Manitoba wheat is steady at 85c for No. 1 hard, 80c for No. 1 northern, and 81c for No. 2 northern, grinding in transit.

Flour—Is unchanged at \$2.90 for 90 per cent. patents buyers and middle freights. Manitoba millers is firm at \$2.30 for cars of shorts and \$2.50 for bran, sacks included. Toronto freights.

After Long Years

"Will you tell me a story?" Mamma often does, you know."

Here was a dilemma. A fair story at a moment's notice!

Happily the maid was not so supercilious as her mistress. She was peevish, but my friend the book-maker, and was pleased to express approval of my recital. "I'll go now," she said, decidedly. "I must go now; but I shall come again here about the wicked ogre."

The room swam before my eyes. Dazed and half incredulous, I found myself once more in the street. Struggling and privation were all that the future was assured.

THE LEADER.

THE EGANVILLE LEADER is made up from material of an entirely new plant selected by ourselves in the large warehouses of the Toronto Type Foundry Company, at Toronto. It is printed on a Prouty power press which was erected in our office by Mr. W. J. Henry, a skilled and courteous machinist in the employ of the company. The newest and most up-to-date type faces have been selected and we take pride in the belief that this office is equipped in a manner that few offices in the Ottawa Valley can boast. We would ask the indulgence of the public when looking over this our first issue, as it is rather crude in form, and lacking in many respects which will be remedied shortly. As it is, we present it to you, believing that but a short time shall elapse before its evolution into the neatest, spiciest and most popular sheet in the whole district.

LOCAL NEWS.

Put me off at Killaloe on Wednesday, June 25th.

Do not fail to read the opening chapters of our new serial story, "Doctor Jack," which is a thrilling tale of love and adventure. Strictly moral.

The High School Entrance Examinations will be held in the Eganville Public School on Wednesday, Thursday and Friday of this week.

Mr. Harry Letang, of Barry's Bay, and Mr. John Harrington, of Killaloe, carried off silver medals at the recent Ottawa University closing.

Mr. Patrick Foley left on Tuesday morning for Barry's Bay where he will oversee operations in the building of Mr. J. Billings' new hotel.

Mr. Antonie Burnsky, of Wilno, and Miss Mary Ann Cymbek, also of Wilno, who are engaged to be married, were united in Holy Matrimony at the residence of Mr. J. Hagarty, carried off silver medals at the recent Ottawa University closing.

The County Council of the County of Renfrew met in session in Pembroke on Tuesday last. Dr. Channonhouse and Mr. A. Stuart, members of the Wilberforce division, were in attendance. The proceedings of the Council will appear in our next issue.

On Friday morning, Mr. John Wolsey, bailiff, conveyed to Kingston asylum Mr. James Higgins, whose mind had become deranged within the past month. The unfortunate man, it is well known throughout the district, being at one time one of Eganville's most successful business men.

For Gents and Ladies' Raincoats try W. George.

Among the political celebrities who shall deliver addresses at the Killaloe picnic are Hon. F. B. Latchford, M.P., Hon. John Costigan, M.P., Mr. Thomas Murray, M.P., Mr. Thomas Mackie, M.P., and Mr. T. W. McGarry, of Renfrew. Rev. Father Sinnott, who was charged with the Canadian contingent in South Africa, will be present and briefly relate his experiences of military life.

The remains of the late James Dunne, of Douglas, who was killed in a railway accident near Calgary 10 days ago, reached Douglas on Friday, June 13th, in charge of deceased's brother, Mr. Thomas Dunne. On Saturday morning the funeral took place to St. Michael's church where a solemn requiem Mass was chanted by Rev. H. S. Marion. The remains were afterwards interred in the cemetery.

From the published report of the Ottawa University examinations we learn that an Eganville student, Mr. James George, son of Mr. John George, is among the successful matriculation candidates and is high up in the order of merit. Mr. John Harrington, of Killaloe, who figured on last season's champion Rugby team, has also secured his matriculation. Mr. Felix French, of Renfrew, Mr. Oswald McDonald, of Arnprior, has passed the intermediate examination (second year arts). Congratulations, boys.

Rev. Father French, P. O. of Brudenell, attended the commencement exercises in Ottawa University on Wednesday afternoon.

The Citizens' Band of Pembroke has been engaged for the Killaloe picnic on Wednesday next. Choice music may be expected.

Messrs. Geo. Perrigo & Son, who deal extensively in live stock, shipped last week a carload of sheep to the Matthews firm, of Hull.

Ladies, if you want a fine up-to-date Skirt try W. George.

Mrs. John Sunstrum, a well-known and estimable lady, of Ottawa, died on Thursday last. Deceased was a sister-in-law to Mr. Samuel Sunstrum, of Golden Lake.

Ottawa University has conferred the degree of M. A. on Mr. Maurice W. Casey, of Ottawa, nephew of Mr. J. Casey, of Eganville. In literary circles Mr. Casey's name is familiar with a large number.

Next Thursday is Coronation Day. In the British dominions, Roman Catholics are released from the obligation of abstaining from flesh meat on Friday and Saturday next, special permission being obtained from the Pope by Cardinal Vaughan.

The first work performed by THE LEADER job department were 200 colored posters for the Killaloe picnic on Wednesday next. Rev. L. A. French, P.P., of Killaloe, wrote his congratulations on the "excellence and attractiveness of the work."

The baseball match at Killaloe picnic between the Renfrew and Brudenell teams promises to furnish good sport. Our friend, Mr. J. F. Castello, will twist the Spaulding for the home team while a gentleman named McGrath shall hold them when they reach the other end of the battery line.

Mr. John Roche, clerk in Mr. W. George's store, filled the role of groomsmen at a wedding in St. Ann's church, Sebastopol, on Tuesday morning last. The parties to the life contract were Mr. Michael Roche, of South Algonia, and Miss M. May, of the same township. The bride was Miss Katie May.

The Ottawa car shops of the Canada Atlantic are building twenty-five platform cars for the St. Anthony Lumber Co. of White Lake. A fifteen mile branch line is also being constructed from Whitney to the Opeongo lakes for the purpose of bringing out logs for the lumber company. Mr. E. G. N. Brice is the supervising engineer and the work is being rushed.

We must direct the attention of our general officer to the growing practice amongst young boys who every evening play about the C.P.R. depot, and when the whistles announcing the coming of the night train, rush down the track and climb upon the moving cars. An accident with fatal consequences is the substance of opinion by those who witness the pranks of these juveniles.

On Friday afternoon the closing exercises took place in Rideau street convent, Ottawa. In the list of honors and prize-winners we note that Miss Beatrice Brennan, of Sudbury, formerly of Eganville, secured the prize for "Catechism of Perseverance," and that Miss Evelyn Martin, of Renfrew, carried off four prizes for Choir Singing, for Domestic Economy, for Deportment; securing also the prize for the best paper, named, "The Prelude."

Mr. P. Furlong, of Eganville, who secured the contract for the clearing of twenty mile of right-of-way on the new Temiscan-Quinte line, is now engaged at the work. We believe the contract has fallen to capable hands, and that Mr. Furlong possesses the energy and experience to push the work to a successful finish. Mr. Thomas Brougham accompanied Mr. Furlong to the scene of operations several weeks ago.

On Wednesday last the annual diocesan pilgrimage to the famous shrine of Ste. Anne de Beaupre was run. It was well patronized, and two special trains were called into service. The local C. P. R. conveyed about 40 pilgrims from Eganville and Douglas to Renfrew where they embarked on the special. His Lordship the Bishop of Pembroke was among those who delivered sermons at the shrine.

Another one has been added to the list of fatal accidents at Whitney mills. On Thursday evening, June 12th, Frederick Martin met death while pursuing his ordinary duties as an employe. His arm was drawn by a belt into the machinery and before aid could be given, the member was wrenched from the shoulder. The unfortunate man died the following day. His interment took place on Sunday, June 15th, at Whitney. Rev. Father J. Ryan, of Eganville, performing the funeral services.

At Eganville, on Sunday, June 12th, 1902, to Mr. and Mrs. A. Mills, a daughter.

Wedding Bells.

HARTY--McGRATH.

The month of June has been most prolific in wedding and young hearts are being made happy by the announcement of vows at the nuptial altar. On Monday morning last there was a large representation of the youth and beauty of the district assembled in St. James' church to witness the interesting ceremony which united for life Mr. James Harty, second son of Mr. Patrick Harty, of the township of Grattan and Miss Mary E. McGrath, daughter of Mr. Morgan McGrath of the same township. The proceedings throughout were made bright by the musical service rendered. The sanctuary was adorned in festive style and June roses and potted flowers bristled forth in a sweet fragrance. Rev. Father Duquett officiated. The bride, most becomingly attired, was assisted through the ceremony by her sister, Miss Annie McGrath, while the duties of maid of honor were gracefully performed by Misses Nellie and Katie Gallagher, of Eganville. Mr. Philip Harty did the honors for his brother, the groom. At the close the organ responding to the artistic touch of Miss Casey, pealed forth in happy strains the Wedding March, while the newly-wed couple walked down the aisle to the vestibule there to receive the congratulations and well-wishes of friends. The merry throngs entered the carriages in waiting and drove to the home of the bride's parents where the wedding festivities were held. Several hundred guests, many from distant points, were present partaking of their hosts' festive board and indulging in the amusements provided. Gifts, some of a rare and costly nature, were given the bride, and their number testified to the regard and esteem in which she is held by friends and acquaintances. THE LEADER joins in the congratulations to Mr. and Mrs. Harty and wishes them all manner of happiness and prosperity.

WELSH--HOGAN

On Tuesday morning St. James' church, was again the scene of a like ceremony. The contracting parties were Mr. Michael Welsh, of Brudenell, and Miss Katie Hogan, eldest daughter of Mr. John Hogan, of the township of Grattan. Rev. Father J. Ryan tied the knot and afterwards celebrated nuptial mass. The bride wore a pretty dress of cream cashmere with hat to match, and was assisted through the important event by her sister, Miss Julia Hogan who wore on the occasion a costume of pale blue organdie. Mr. John Welsh discharged the duties of groomsmen. After the ceremony the wedding party and friends drove to the bride's late home where a dinner of the choicest viands was provided. The day was most enjoyably spent, until the hour when Mr. and Mrs. Welsh departed for their new home near Brudenell. May good fortune attend them in their new life is the wish of THE LEADER.

HELPFERTY--SULLIVAN

On Tuesday morning of last week Mr. Edward Helferty, son of Mr. Patrick Helferty, of Grattan, took for a life partner Miss Maggie Sullivan, an estimable young lady of Ottawa. The ceremony was performed in St. Patrick's church, Ottawa. Rev. Father O'Donnell officiating. The bride was assisted by Misses Katie Sullivan, Margaret Kenney and Mollie Irving, while the groom had the services of Messrs. Hugh, Helferty, James Kenney and David Irving. The young couple arrived at the C.A.R. station here on Tuesday evening for a brief stay with their friend in Grattan. They will make their home in Montreal where Mr. Helferty holds a good position with the St. James' club.

SAMBROOK--KNIGHT

Rev. Father J. Ryan, of Eganville, officiated at a very pretty wedding in Whitney R. C. church on Monday last when Mr. Charles H. Sambrook, of Brule Lake and Miss Julia Knight, formerly of Adolphus, pronounced the irrevocable vows. Miss Gertrude Ryan assisted the bride, and Mr. W. J. Caron, of Whitney, performed a similar service for the groom. The young couple will make their home at Sturgeon Falls.

KUTCHAW--LARONDE

On Tuesday morning last Miss Laronde, of Osoeleo, and Mr. Simon Kutchaw, of Lake Doré, entered the matrimonial state.

"Doctor Jack"

A Thrilling Story of Love and Adventure. Opening chapters in this issue.

One of the Best Stories of the Age.

MONDAY, JUNE 23, 1902.

Messrs. James George and "Mac" O'Neil, students at Ottawa University, are home for the holidays.

Messrs. McKiever and Peck, of Ottawa, and the Misses Currier, of Renfrew, spent a short while on Sunday with Eganville friends.

Miss Tessie McCann, who was taking a course in several branches of study in Rideau St. Convent, Ottawa, returned home on Sunday evening accompanied by her friend and fellow-student, Miss Maggie Linnott, of Minneapolis, Minn.

Yesterday (Sunday) was known as Flower Sunday in the Methodist church. An excellent program of sacred music was rendered by the choir, especially prepared for the occasion. The esteemed pastor of the church, Rev. Mr. Miller, preached what was termed a coronation sermon.

Rev. Father Dowdall Returns.

On Saturday evening Rev. Father Dowdall, P.P., arrived home, having completed his health treatment at Three Rivers, Que. On Sunday he filled the pulpit in St. James' church preaching an able sermon on the gospel of the day. In a few preliminary remarks to the congregation he thanked them for their prayers on his behalf and assured them that these had been abundantly answered, for his health was now perfect. We understand that Father Dowdall leaves shortly for Winnipeg and the coast, spending some time at Banff springs. Rev. Father Quilty also returned on Saturday from Three Rivers, much improved in health.

PERSONAL MENTION.

Mr. W. A. Mulligan, of Aylmer, spent Friday with Eganville friends.

Miss Lucy Green, who had been on an extended visit to friends at Sault Ste. Marie and district, has returned home.

Miss McGuire and Miss Maggie J. Gorman spent several days last week the guest of the latter's sister, Mrs. James Murphy, of Douglas.

Mrs. J. P. McNamara, of Sudbury, is a guest at the home of Mr. and Mrs. P. McNamara, (Perry Sound Station).

Miss Susan McNamara, who had been making a sojourn with her brother at Sudbury, returned home last week.

Misses Maud and Maggie Mahon, of Barry's Bay, were visiting the excursionists at St. Anne de Beaupre on Wednesday morning.

Miss Nellie McCaffery and Miss Lily Murphy, of Perth, visited the former's sister, Mrs. Philip Fitzpatrick, of Wilberforce, on Sunday and Monday last.

Mrs. J. McDermott and Miss McDermott were visitors to Ottawa on Wednesday last.

Mrs. James Gallagher, and two children, of Sault Ste. Marie, are guests of Mrs. Gallagher's mother, Mrs. Devlin.

Mr. and Mrs. J. Downey, of Des Juchins, are visiting Eganville friends. Mrs. Downey (nee Miss Tessie Lapolice) is a sister to Mrs. J. O'Neil and Mrs. R. J. Roney.

Mr. Robt. Gallagher, of Menominee, Mich., joined his wife here last week. Mrs. Gallagher has been the guest of her parents, Mr. and Mrs. John Foley, for several months past. Both return to their American home in a week or two.

The New System

Powley's Liquefied Ozone kills the Germs of Disease

It Cures Catarrh

It has only been in this century that the great value of Powley's Liquefied Ozone, as a germicide, was recognized by the use of science of the world. It was noticed that every kind of disease was benefited when the patient used to live in moist air and that it was later discovered that in the rare air of high localities there was a great amount of ozone. Now Ozone kills the germs of disease, and this accounts for the health giving properties of the air.

Powley was able to liquefy Ozone and adapt it for medicinal purposes. Already Powley's Liquefied Ozone has made remarkable cures. Read what Mr. McLeod says: "I send you this brief account of my experience with Catarrh. I have been troubled with Catarrh, and have told you, for over forty years. Ozone remedies. I have been treated by the best doctors. There have been times when I feel that I am cured. Catarrh remedies, but all these proved a total failure. Over a year ago I was induced to give Ozone a trial and today I feel glad and rejoice in being cured of an obstinate attack of Catarrh. My sight is much better. My hearing is immensely improved and my knee back, i.e., lameness, is all gone. Two years ago I was a physical wreck. Today I am rugged and healthy. And to you and the Ozone, I am indebted for Ozone knowledge. May God bless you for the good work, is the prayer of your much indebted humble servant."

Signal, ALEX. MCLEOD, of Eganville St., Toronto. Powley's Liquefied Ozone is \$2.00 a large bottle, 50c small size. All druggists, or from the laboratories of the Ozone Co. of Toronto Limited, 45 Colborne St., Toronto.

ENGLISH HISTORY.

Edward the Fourth, Henry V. Carous-

It was in the midst of the fierce struggle between the Yorkists and Lancastrians that Edward the Fourth came to the throne. He was the son of Richard, Duke of York, and great grandson of Edmund, Duke of York, fifth son of Edward III. When his father was killed at the battle of Wakefield in 1460, he was routed another Lancastrian force at Mortimer's Cross, and marched directly from Hereford to London. Parliament recognized his claim to the throne, but for some time he had to struggle and fight hard to keep his position. In years though, his youth, he was well calculated to make a great figure in martial times, being handsome, lively of disposition, affable, and brave. His military talent was shown in the fact that he fought ten battles and was always victorious. His defeat and overthrow of Warwick at Barnet, when the "king-maker" was killed, brought no peace to the nation, as Edward soon worked up a bitter quarrel with France. It was in the midst of preparations for an expedition to Calais that the King was struck down by a fatal illness. Although he was not yet forty-one years of age, he was in the twenty-third year of his reign, during which he had grown corpulent, gross, and unhealthy. This warrior King was moribund in his cot, tumo, luxurious at table, and most licentious in his amours. With all his brilliancy, he attacked no one to his fortune, and his two sons, left young and unprotected, speedily perished.

Henry V. was consecrated by Archbishop Fitz-Alan on April 3 (being Passion Sunday), 1413, his father having died on March 20 preceding. Some of the peers were said to have shown an unusual forwardness of zeal in favor of this prince by offering him their homage before his coronation; a thing, says Hall, observed, "not before experienced." The event was celebrated at Westminster Hall with a splendor proportioned to the lustre of the throne. The ceremonies which afterwards distinguished the annals of that victorious monarch. By way of preserving order and adding to the splendour of the spectacle, many of the nobility were ranged along the sides of the table on large war horses, at a festival "which," says Thomas de Elmham, "was a second feast of Ashesrus." On the shrine of Henry V. in Westminster Abbey, is represented the coronation. One feature is familiarly recast, a badge which was borne by Henry V. alone, as typical of the light "to guide his people to follow him in all honor and virtue."

Many peculiarities were noted at the coronation of William and Mary on April 11, 1689. The king and queen walked side by side, not as king and consort, but as joint sovereigns, with the sword between them. A consultation of the peers was provided, which continued to the present day. For the first time also a record chair of state was used. Into the chair Mary was lifted, and she her husband, girl with the sword and invested with the symbols of authority. The procession from Whitehall was led by the queen, in consequence of the rumor that James II. had landed in Ireland. "Much of the splendor," writes Evelyn, "of the proceeding was abated by the absence of divers who should have contributed to it, these being sick in 1689, and four judges." The Archbishop of Canterbury excused himself from officiating, and his place was taken by the Bishop of London, assisted by the Bishop of York. Dr. Barne, Bishop of Salisbury, preached the sermon.

THE ART OF WAR.

British experts in the art of war are turning their attention to the study of the bee as a means of transporting war despatches.

Alfred thought it seems almost ridiculous, but when it is explained it does not seem to be so far-fetched. It is well known that pigeons have been employed as despatch bearers in war time. Now it is claimed that bees would be more successful, inasmuch as it would be more difficult to intercept them, as the most sharp-shooters could scarcely hit a bee in process of flight.

The practice of photographing despatches down to minute proportions, for transit, and reproducing them when received to larger and legible proportions by photography, has been practiced for some time. In employing bees as messengers, the despatches would be reduced by photography to a very small size on a thin sheet of paper, and fastened securely to the bee's back. At least that is what some military authorities propose to attempt.

THE LITTLE SHOP.

They had been talking at the rate of fully eighteen to the dozen, those two fair young dancers, and the subject of their conversation was, of course, the wise and witty sayings, the charms of manner, and other admirable traits of character possessed by their respective sweethearts.

"Don't you like to have anybody talk shop when they come to see you?" queried Mary.

"Indeed I do. Who's been talking shop to you?"

"Oh, Charlie, of course! He's a tram conductor, you know, and nearly every time he comes to see me he goes on with his shop talk."

"What does he say?"

"Sit closer, please!"—London Advertiser.

THE OTHER WAY.

There are many thousand fathers who are terrorizing their little sons by

THE ECONOMIC MULE.

The mule is ready to begin work two or three years earlier than the horse. He can be put to pretty heavy pulling when he is three years old, and from that time until he is forty. If he has fair treatment and does not meet with an accident, he is not likely to lose any time. He is not subject to the many ailments to which the horse is a victim, at least not to any great degree. He lives about twice as long, and his actual period of usefulness is nearly three times as long. For the horse is really not fit for heavy service until he is five years old or after he is twenty, while a mule will often do good service for forty years, and they have been known to work after, according to one writer, without being turned out at any time during all that long period.

Like the ass, the mule will live upon next to nothing, and during all his forty years of hard service a mule will not require—and generally does not get—half the feed necessary to sustain a horse during his much shorter period of usefulness.

Where Allspice Grows.

The island of Jamaica produces about all the allspice that is used. It is known also as pimento, or Jamaica pepper. The tree on which the berries grow is evergreen, and the flowers grow in dense clusters. These develop into small green aromatic berries, the size of black pepper. If allowed to ripen, they become pulpy and lose some of their pungency. For commercial purposes the berries are gathered when green, carefully dried in the sun and afterward packed in bags holding 100 to 180 pounds and shipped. Pimento trees grow in warm and a tropical America, but nowhere do they thrive as in Jamaica. The trees are never planted by man and receive no cultivation worthy of the name. The seeds are dropped by the birds, and the rains and the tropical sun do the rest. Sapling trees are cut down and become walking sticks and umbrella handles. This spice is more mild and innocent than most other spices.

He Was the Languisher.

The Rev. Dr. Mackenzie of San Francisco was once calling on a new pugilist named John, a "blue-eyed boy." She had invited the doctor to dine "Willie," she said to her hopeful, "just Dr. Mackenzie a potato."

Willie seized the potato between his teeth and finger, and before his mother could utter a horrified remonstrance he had tossed it across the table and squarely into the cook man's lap.

"Judgment," cried Willie.

"One strike!" quoted the quick witted clergyman.

"Willie, leave the table!" stormed his mother.

"Madam," said the minister, "do not judge him harshly. See how beautifully he put the sphere over the plate! And from that time there wasn't a more earnest worker in all the big Sunday school than that little Willie."

Cure For Hiccoughs.

Hiccough usually attacks persons of nervous temperament and young children. It is caused by a spasm of the diaphragm which have overruled the stomach. It may also be caused by eating foods which have been too highly seasoned.

The most useful remedy and perhaps the most inoffensive and the best known is a glass of water, in which has been previously been steeped in vinegar or drinking a spoonful of cool vinegar in which some sugar has been dissolved.

If this is not at once successful, a second spoonful is certain to be so.

A Hungry Muselman.

During the siege of Ladysmith an officer who was organized to a concert to keep up his men's cheerfulness heard of a sergeant in the Gordons who was said to be a performer. He found the said sergeant and asked him to con tribute his powers.

"Why," said the officer, "you do play something, don't you?"

"Oh, yes," said the sergeant, "I play the guitar."

"Well, what's your instrument?"

"The guitar, sir—but I've ate up."

Modern Instance.

"And must he said 'two will wait while our old friend the apostle Paul has to say. Step up here, Paul, and give us your testimony."

No, the speaker wasn't a dignified religious lecturer in the celebration of his birthday.

It was the Rev. Mr. Sewall, the popular pastor of the Bank Avenue church, who was preaching a doctrinal sermon.

The Shock To Society.

"Did the Corners' jury ascertain what caused Howson's sudden death?"

"Yes. It appears that he received a plummer's blow in his morning's walk."

"But surely that did not kill him?"

"That wasn't it, but about noon the plumber himself called and said there was an overcharge in the bill that he wished to correct."

Recent.

Mrs. Hunt—I suppose Jane Porter is the most truthful person in town.

THE CHARITY OF ALL CHARITIES.

THE CARE OF THE SICK CHILDREN.

What The Hospital for Sick Children on College Street, Toronto, Has Done and Is Doing for the Little Sufferers of the Province of Ontario.

An institution that requires about \$34,000 a year for maintenance, an institution that depends for support on the goodness of the generous people of the Province of Ontario, must needs have considerable faith in the love, affection and generosity of the people. While the institution is located in Toronto its work is essentially provincial. It admits not only children from the city of Toronto but from every city, town, village and hamlet, yes, from every spot in the Province of Ontario.

So when you give—be giving large or small—it goes for the benefit of every child of the province that is admitted and treated.

This statement is made because occasional reference is made to the Hospital as a Toronto institution for Toronto patients, whereas every rich child in Ontario has the same rights and privileges as those who live within the shadow of the great red pile on College street.

It costs about \$34,000 per year, or a dollar per patient, per day, to maintain the Hospital. The Government of the province gives about \$7,000 a year, or nearly eighteen cents per head, in other words, per patient per day. This money is all expended in maintenance. The corporation of the City of Toronto does even more. It gives \$7,500 per year or sixteen cents per head per day, and this too goes towards the maintenance, not only of Toronto patients, but for every patient of the Hospital, no matter from what part of the province the little one may come from. Yes, and this contribution of the corporation of Toronto—\$7,500—of the province gives about \$7,000 a year, or nearly eighteen cents per head, in other words, per patient per day. This money is all expended in maintenance. The corporation of the City of Toronto does even more. It gives \$7,500 per year or sixteen cents per head per day, and this too goes towards the maintenance, not only of Toronto patients, but for every patient of the Hospital, no matter from what part of the province the little one may come from. Yes, and this contribution of the corporation of Toronto—\$7,500—of the province gives about \$7,000 a year, or nearly eighteen cents per head, in other words, per patient per day. This money is all expended in maintenance. The corporation of the City of Toronto does even more. It gives \$7,500 per year or sixteen cents per head per day, and this too goes towards the maintenance, not only of Toronto patients, but for every patient of the Hospital, no matter from what part of the province the little one may come from. Yes, and this contribution of the corporation of Toronto—\$7,500—of the province gives about \$7,000 a year, or nearly eighteen cents per head, in other words, per patient per day. This money is all expended in maintenance. The corporation of the City of Toronto does even more. It gives \$7,500 per year or sixteen cents per head per day, and this too goes towards the maintenance, not only of Toronto patients, but for every patient of the Hospital, no matter from what part of the province the little one may come from.
